What character you enjoyed the most in the book/s and why?

What character traits from a character in the book remind you of someone you know? It could even be yourself? I.E. 'Klaus in the story The Bad Beginning, reminds me of my older sister, Wanda. She has always got her nose in books and seeks knowledge whenever and wherever she can about any subject.'

3 words or phrases I learnt the meaning of...I.E. I discovered a new word called 'relinquished' a word which means-to give something over, even if you don't want to. A phrase that was brought to my attention was 'casing the joint' which means- observing a particular location in order to formulate a plan.
